Delightfully Irrational Pharmaceutical Breakthroughs

About Us

ResearchSat is a pioneering space biotechnology company manufacturing life-saving pharmaceutical compounds in microgravity. Our proprietary Space Bioreactor unlocks biological processes not possible on Earth—leading to purer, more stable, and more effective Active Pharmaceutical Ingredients (APIs) for global health.

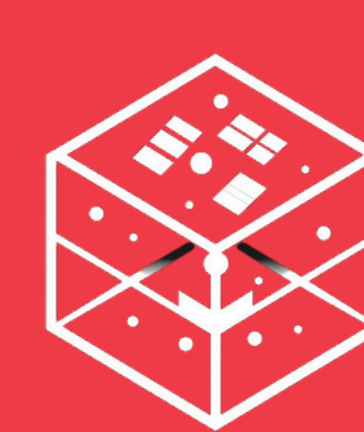

Microgravity = Better Medicine

Grow crystals, cells, and compounds with unprecedented precision.

Global Pharma Use Cases

Enabling R&D for drug discovery, protein crystallization, and biologics production

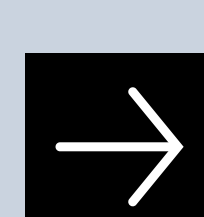

Next-Gen Factory in Space

Supporting pharma, biotech, and academia from orbit.

ACCELERATING SCIENCE. HARNESSING SPACE. TRANSFORMING MEDICINE
