AICRAFT is a South Australian company that designs and manufactures low-power smart computing systems with AI capability for space and aerospace applications.

→ We do not use NVIDIA in our products

→ Australian designed and manufactured

COMPETITIVE ADVANTAGES

→ Most compact, low-power technology

→ Low-latency, real-time intelligence

→ Increased data collection

→ Up to 95% lower bandwidth requirement

→ Made for space (if needed):
  • Radiation tolerant
  • Advanced data integrity checks
  • Advanced latchup resilience
